

*Ful. R&D Planning #3*

ADMINISTRATIVE-INTERNAL USE ONLY

ODP-83-1284

7 September 1983

MEMORANDUM FOR: DDA Planning Officer

FROM:

[REDACTED]  
ODP R&D Coordinator

STAT

SUBJECT: FY 86 R&D Program

REFERENCE: Your note w/att., Same Subject, dated  
12 August 1983

1. As requested in the Reference, I have attached ODP's R&D problem statement input for the FY 1986 DDS&T Program. Three statements have been provided this time. Two are new; one is a repeat from last year (Low-cost TEMPEST Technology). This list does not mention on-going R&D activities. It is assumed they will continue to completion. I have also assumed that a generic statement on computer security will be submitted by OS.

2. Our priority ranking is as follows:

1. Low-cost TEMPEST Technology
2. Personal Computers in CIA
3. Artificial Intelligence (AI) for Software Design

3. The last item (AI for Software Design) could probably be further generalized to "Improved Applications Development Productivity," with AI being only a suggested approach.

4. If you have any questions, please do not hesitate to call me on [REDACTED]
